

TEMPEST Level I HP® Color LaserJet CM3530 Digital Sender/Copier/Printer

Product Data

Model - DAT-205 (Level I)

Description

API's TEMPEST version of the HP CM3530 MFP Multifunction Color Laser Printer is an ideal choice for those who need a multifunction machine that will handle all of their printing, scanning, copying and secure faxing needs. The design is such that the DAT-205 can sit on top of a desk but it still has all of the capabilities of much more expensive all in one color laser printers. Enhance work team productivity with black-and-white and color print speeds up to 31 pages per minute (ppm). Time to completion of a typical office print job can be up to 40 percent faster with Instant-on technology. Count on reliable, consistent, high-gloss, high-quality printing with HP ImageREt 3600 and improved HP ColorSphere toner. Meet your specific business needs with support for a range of paper sizes and types, including glossy and heavy paper. Save time while providing greater value to users and your business. Easily control who can print in color and how much with HP's Color Access Control technology.

Integrate documents into workflows with embedded send to e-mail and send to folder functionality. Optional HP Digital Sending software (HP DSS) enables documents to be sent to FTP sites, network folders and fax services.
